The Provident Life and Trust Company OF PHILADELPHIA

The true objective in the management of a Life Insurance Company is two fold: First, to maintain perfect security; and second, while respecting the rights of every policy-holder to reduce the cost of insurance. Judged by this standard, the PROVIDENT claims to be unexcelled.

The **New Policies** of the Provident are unsurpassed for conciseness and simplicity of form and for adaptability and liberality in all essentials.

The **Premium Rates** of the Provident are exceedingly low and are still further reduced by large annual dividends.

FACTS ABOUT HOOD'S MILK

A Perfect Milk is a Perfect Food.

H. P. Hood & Sons originated and employed hygienic methods in the production of PURE, CLEAN and SAFE Milk in the country years previous to any measures being taken by the Boards of Health or United States Department of Agriculture.

During sixty-four years of continuous service not a case of disease has been traced to Hood's Milk.

The food value of Hood's Milk is attested by sixty-four years of constantly increasing sales.

The name of "HOOD" is and has been for more than sixty years a synonym for excellence of dairy products and honesty and liberality in commercial dealings.

H. P. Hood & Sons have always maintained the highest standard in the quality of their dairy products and sell milk, cream and butter at the lowest price for which a PURE, CLEAN and SAFE article can be put upon the market.

The transportation facilities from their sources of supply in the country to the consumers in the city, and their local and suburban delivery system are unexcelled.

Hood Farm Milk won an Award of Merit for excellence of quality at the National Dairy Show Association Exhibition held under direction of the United States Department of Agriculture at Chicago, Illinois, February, 1906, after having taken the longest journey of any of the twenty-one lots of milk exhibited.

Hood Farm Milk also won the First Premium for Excellence of Quality offered by the Granite State Dairyman's Association at an exhibition held at Peterborough, N. H., December 7, 1906.

Hood's Butter was awarded sweepstakes and first premium by the Granite State Dairyman's Association at their Annual Meeting and Exhibition held at Exeter, New Hampshire, January 14, 1910.

Hood's Milk, Cream and Butter are supplied fresh every day in more than 100,000 homes, hotels and restaurants of Greater Boston.

No other milk dealers have expended the money to safeguard the health and happiness of their customers by employing Experts as inspectors to instruct the farmers — 1, as to the health of the herd and its protection; 2, the cleanliness of the cows and their surroundings; 3, construction and care of the utensils; 4, the health of the employees and the manner of milking; 5, handling the milk; the maintaining of a laboratory and making daily bacteriological tests and analyses; perfecting unexcelled transportation facilities and protecting the milk, cream and butter from contamination during transportation from the farm to the consumers' door, insuring them to be PURE, CLEAN and SAFE.

Hood's Cream is the Cream of Quality

**Special boxes

REGULATIONS CONCERNING FIRE ALARMS

First alarm to be given by striking four rounds on all bells

Second alarm to be given by striking three blows on all bells, followed by one or more rounds of bor number

Third alarm to be given by striking five blows on all bells followed by box number

1 One stroke at 12 M, Washington time, and 9 p m every evening

1-1 Two strokes slow for fire out, and all apparatus under way will return to quarters

INFORMATION FOR YOU

To give an alarm, open the door to fire box, pull down the hook in box once (without jerking) and let go. Wait for a few seconds and if you hear no clicking of the wheels, pull again (no clicking, no alarm); if then no movement is heard go to the nearest box and try, after which report immediately to the superintendent or at the Station House, the box out of order

Before ringing an alarm be sure that a fire actually exists

Do not give an alarm for a fire seen at a distance as all needless alarms are an expense to the town, and should be avoided as much as possible

All persons giving fire alarms are requested to remain by the box, if possible to direct the firemen to the fire. Each box contains a small bell, which if heard before you pull, indicates that the alarm has been previously given

After the first alarm has been rung in, all other alarms or signals are given only by the engineers

Tampering with any of the apparatus connected with the Fire Alarm Telegraph will be prosecuted to the full extent of the law

SPECIAL NOTICE

The fact that an alarm box is located near their residence and where the key is kept, should be known to all persons, both male and female; and the simple manner of giving an alarm in case of fire should be a matter of common education. The chief recommends to all persons who may see this notice, that they make necessary inquiries to enable them, in case of need, either to pull an alarm in, or direct others to do so. Time saved in this way may prevent a conflagration.

Liquid Gas Tire Inflator

The Greatest Luxury of Motoring

NO MORE DRUDGERY AT THE HAND OR FOOT PUMP. HITCH THE COUPLING TO THE TIRE-VALVE, TURN A LEVER AND THE PRESSURE OF THE LIQUEFIED GAS IN THE TANK DOES THE REST.

SAVES TIRES

Because its regulator permits you to inflate tires to an exact, uniform tension. By thus equalizing the strain and "trimming" the car, you avoid rim-cutting of tires.

The gauge registers the pressure exactly. When you turn on the gas pressure the needle moves along the numbered dial, and you shut off the pressure the instant the proper figure is reached. Our instruction card gives a pressure table for tires of varying sizes.

CARBON GAS PRESERVES RUBBER

BECAUSE IT CONTAINS ABSOLUTELY NO FREE OXYGEN—THE CORRODING ELEMENT IN AIR AND WATER.

PRICE OF ENTIRE OUTFIT AS SHOWN \$20.00

Tank is shipped filled with four to five pounds of carbon gas liquefied under pressure—enough for from 25 to 50 Inflation. When empty, we refill at any of our 14 branches for \$2.00.

AS A FIRE EXTINGUISHER

This carbon gas is also an infallible and instantaneous fire extinguisher, putting out the worst gasoline fire almost instantly and saving the damage done to woodwork and upholstery by water or chemicals.

Order one from your dealer. If he does not handle them, Phone, Write or Call at

NATIONAL AUTOMOBILE ASSOCIATION

ITS OBJECTS, CHARACTERISTICS AND ADVANTAGES

The NATIONAL AUTOMOBILE ASSOCIATION is the pioneer association of its kind in the United States, being the first to champion fair treatment and consideration for the motor car driver, and in looking directly after the individual member.

The work of the association is carried on by three departments.

First: The LEGAL DEPARTMENT, which affords the services of expert attorneys to defend its members for any violation of the automobile laws in the United States and Canada; also where suits for injury to animals or damage to property are brought against a member; Legal representation before any state tribunal which controls the licensing or registration privileges, and the advice of counsel on all matters pertaining to motoring.

Second: The TOURING DEPARTMENT gives members itineraries and specially drawn routes to all parts of the civilized world; Weekly Bulletins of police traps, picturesque routes, and the names and locations of the hotels and garages; obtains for members substantial discount on shipping automobiles abroad, on touring maps, and admission to the Automobile Association of England, the Touring Club of France and the Royal Automobile Club of England.

The Association in this connection has furnished a room with maps and other touring accessories for the use of its members. It also furnishes to its members a valuable hand book of the Automobile Laws of the United States and Foreign countries.

Third: The INSURANCE DEPARTMENT. The National Automobile Association does not intend to assume a passive attitude on the insurance rate question, as it considers the motorist is paying too high a premium for adequate protection and it is endeavoring in every way possible to save its members considerable in insurance premiums. The Association asks the co-operation of all automobilists in this work, and will be pleased to give more information to any one desiring it.

The OFFICIAL INSIGNIA of the association, in brass or nickel, artistic and attractive in design, is given free to members with an attachment for placing on the automobile. This insignia obtains for a member courtesies and attentions everywhere, and willing help from fellow-members if desired.

The support and united action of motorists are necessary to maintain the object for which this association was formed, and you are earnestly invited to become a member.

MEMBERSHIP DUES ARE TEN DOLLARS PER ANNUM.
